HER NEIGHBORS KNOW.

And All Her Friends Know About the Matter.

And Now She Wishes That Everybody Should Know All the Facts.

For That Reason She Makes a True and Straightforward Statement.

The friends and neighbors of Mrs. Ira Henderson, who resides at Armada, Mich., know all about the matter, and she now wishes that everybody should know all the facts just as they occurred. "For nearly four years," she says, "I had suffered. I was so nervous that I could not write or read, could not even bear my children's company. I would have such a strange feeling in my head it seemed as if I should lose my mind. I was very weak and nervous and would get all in a tremble and my heart would beat so hard that it would almost take my life. I would have dizzy spells and what little sleep I would get did me no good. I could not eat anything that tasted right. It did seem as if everything had changed. I was greatly depressed and thought if only the Lord would enable me to keep my mind until I could get help.

"I doctored for two years without benefit, and then took Dr. Greene's Nervura blood and nerve remedy. I received help right away and I could see that the first bottle was helping me. I cannot be thankful enough. I have recommended it to others and they have been helped by it.

FIGHTING ITALIANS.
A Bloody and Probably Fatal Affray at Louisville.

Louisville, Col., April 3.—A bloody fight took place here about 1 o'clock this morning, about twenty Italians being the participants. Knives and guns were used to argue the important points.

All day yesterday and until late in the evening heavy drinking had been indulged in by the Italians and as a result of the wind up, which occurred early this morning, Charles Mariabando is lying at the point of death with a bullet hole through his breast. Antonia Calveta and Jack Andre are lying very low with cuts about their heads, arms and breasts. They will probably recover. Another Italian whose name cannot be learned, is very badly cut. The sheriff is here and assisted by the constables, several arrests have been made and more will follow. The Italians are very reticent about the cause of the trouble, but it seems to have been simply a drunken row.

CHOCTAWS AT WAR.
All Agreements to Have Peace Believed to Be Disregarded.

Pattus, Tex., April 3.—It looks as though all agreements to have peace between the Choctaw factions had been disregarded. Last night the militia agreed to disband and go home. Tonight they are drinking and declaring they will move Locke. If they continue in their present mood a fight will come off before tomorrow night. Locke has sufficient food for a 100 days siege. Both sides are about equal in numbers. The Choctaw government is issuing scrip to meet its expenses and that is now being a market at 80 cents on the dollar. It seems now that martial law is inevitable as the militia has broken faith with Renhatt. That is what Locke desires.

CARRIER BOY CONVICTED.
Sentenced to Six Months for Selling Papers in Mexico.

El Paso, Tex., April 3.—Francis Coaquilar, carrier for the Hispania Americano, a Spanish paper published in this city, and who was arrested several weeks ago for distributing the paper to Mexican subscribers in Juarez, was today sentenced to six months imprisonment in that city by the government authorities. This is the first case of its kind to happen since the famous Gering affair, and is exactly similar in that the government has taken the right to claim jurisdiction in the case. The offense which the Hispania Americano committed was publishing matter regarding the Garza revolution.

DR. ADLER'S PROPHECY.
He Says the Suffrage Must Be Had to Avert a Catastrophe.

Vienna, April 3.—Dr. Adler, the most conspicuous socialist agitator in the city, delivered an address in favor of universal suffrage before a meeting of 4,000 workmen this evening. Two-thirds of the adult males in Austria, he said, had no votes. Only such semi-barbarous countries as Russia and Spain were disgraced by such inequality of citizens before the law. Unless the government took steps to right this wrong the suffrage question was likely to find its solution in a social catastrophe.
